Library Learning Commons Communiqué

LSSU Campus Read is coming...!

The Campus Read Planning Committee invites LSSU students, staff, and faculty to nominate books to be considered for the 2018-19 Campus Read. The next Campus Read will occur over the full 2018-19 school year, culminating in a capstone event in the Spring 2019 semester: **TEDxLSSU!**

The book selected for the 2018-19 Campus Read will facilitate: building community (on campus and beyond!); starting conversations between people with diverse experiences; social engagement with the world around us; and critical thinking. Want to increase the chances of your book being selected? Tell us how your book will facilitate these stated objectives in the nomination form.

Ready to nominate? Head to <http://bit.ly/lssureadthisbook> and fill out the nomination form. Nominations are due by *5pm Wednesday, March 14, 2018.*

Palm of the Hand Memoir Writing Workshop

 Join us for the Palm of the Hand Memoir Writing Workshop, held on the first Tuesday of every month from noon to 1 pm. Feel free to bring your lunch to the workshop. Led by librarians, learn how you can capture your life on paper, one memory at a time. Upcoming dates: March 6, April 3, May 1, June 5

BE Inspired: Nucci Cerioli

March 20, 2018, 5:30pm

Join us in the Learning Commons for the Spring 2018 BE Inspired event. Ms. Cerioli has two decades of experience in Supply Chain management, and will speak about how the Supply Chain works in different cultures, with a strong link to "how things get done" in Australia vs Spain vs the US.

Brain Awareness Week

March 12-18, 2018

Stop by to see displays by PSYC459 students on a variety of brain related topics. Students will present their projects on March 15, from 3:00-4:20pm.

Dr. Adam Prus, NMU

3pm, March 23, 2018

Dr. Prus will review the neuro-pharmacological actions of antipsychotic drugs, which are the primary treatments for schizophrenia.

Along the way, the presentation will discuss the history of the diagnosis and treatment of schizophrenia, how pharmacological treatments are developed, and some goals for developing more effective antipsychotic drugs.
